[President.]

So that, if, as is proposed, we pass on to another item of business on the agenda, and if that is passed, it means the business thereby displaced cannot be brought up for discussion for one whole year.

MR. G. PARAMESVARAN PILLAI (*Neyyattinkara*): Unless the resolution is moved, the motion cannot be brought forward.

PRESIDENT: The motion cannot come up until the resolution is moved.

MR. G. PARAMESVARAN PILLAI (*Neyyattinkara*): The difficulty will be overcome if the Member says "I do not move the resolution".

PRESIDENT: The only available authority as regards the first two kinds of motions was the practice elsewhere and according to Parliamentary practice, the business should lapse if the motion be of the first class. In the case of motions of the second class, the debate might be continued on any other day allotted for non-official business compatible with public interest.

MR. K. P. NILAKANTA PILLAI (*Chirayinkil*): Then I do not press the motion.

PRESIDENT: Then I shall call upon Mr. Raman Menon to move the resolution standing in his name.

MR. C. P. KOCHUKUNJU PILLAI (*Kottarakara cum Kunnattur*): We have only five minutes.

PRESIDENT: We began a few minutes late this afternoon. Therefore I propose to give a few minutes more.

MR. K. P. NILAKANTA PILLAI (*Chirayinkil*): Yesterday afternoon the House rose at 1-45 and met at 15 minutes after 3.

PRESIDENT: We rose not at 15 minutes to 2 but eleven minutes. We sat according to my timing very nearly between 9 and 10 minutes after 3. So, there is a difference of a minute and a half to make up which I propose to give you.

The following resolutions were not moved:—

Amalgamation of certain Development Departments.

MR. G. RAMAN MENON:

This Council recommends to the Government that the Departments of Agriculture and Fisheries, of Industries, of Co-operative Societies, and Joint Stock Companies may be amalgamated under one officer of the grade of a Division Peishkar.

Royal Trees growing on Private Lands.

MR. S. SUBRAHMANYA KARAYALAR:

This Council recommends to the Government that the so-called royal trees growing on private compounds assessed to land revenue to Government should be made the absolute property of the owners of the lands, as that would result in the material advancement of the people.
